**DETAILED ACTION**

***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Allowable Subject Matter***

2. Claims 1-3 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

After review of applicant's remarks dated November 28, 2003 and reviewing applicant specification in particular pages 9-10 which discloses the benefit of using a super radiance light source the examiner has found that the independent claims show an inventive step.

Regarding claims 1-3, the prior art fails to disclose or make obvious a sensor utilizing attenuated total reflection having a semiconductor light emitting element that emits light by super radiance with a detection system for detecting the attenuated total reflection by measuring the intensity of the light beam for total internal reflection at the interface, and in combination with the other recited limitations of claims 1-3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
